[SEARCH FORM] REMOVAL OF RECENT TRIPS SECTION

GDS SUPPORTED	All
COUNTRY	All
ACTIVATION	Automatic
AVAILABLE ON ...?	Desktop Tablet Mobile

SYNOPSIS

Recent trips is a search form section which displays previous trips and past saved searches.

Since this section has a low usage, it will not be reimplemented on the new search form. Consequently, it is now removed from the search forms where it appears, including desktop and tablet. This will be a part of a longer search form refit which project teams are currently working on.

New search form without Recent Trips

The screenshot shows a flight search interface with the following elements:

- Navigation tabs: Flight/Train, Hotel, Car, Trip builder
- Trip type: Round trip, One way
- FROM: Office
- TO: New York (NY) - All Airports and Railways
- When? section:
 - OUTBOUND: Thu 28 Oct 2021, 11:00 AM
 - INBOUND: Sat 30 Oct 2021, 11:30 AM
- Advanced search link at the bottom.

[TRANSPORT] SEARCH IMPROVEMENT WHEN SELECTING RAIL STATION OR AIRPORT

GDS SUPPORTED	All
COUNTRY	All
ACTIVATION	Automatic
AVAILABLE ON ...?	Desktop Tablet Mobile

SYNOPSIS

Improvements have been made on searches done in Neo to provide users with a more satisfactory user experience.

When selecting a rail station in Neo, only rail travel options will be displayed.

The same applies for when the user chooses an airport, and only air travel options will be displayed.

This change is applicable to clients using the Flight/Train tab:

- Air Search : Marseille - Lyon airports

Before Release:
Flights + Trains displayed

The screenshot shows search results for Marseille to Lyon. It lists two options: an Air France flight (06:50 MRS to 07:45 LYS, 55m, Light Economy, €86) and a SNCF train (06:36 Marseille St Charles to 08:20 Lyon Part Dieu, 1h 44m, Prem's Second, €23). Both options include COVID-19 compliance information.

After Release:
Only Flights are displayed

The screenshot shows search results for Marseille to Lyon after the release. It now only displays flight options: Air France (06:50 MRS to 07:45 LYS, 55m, Light Economy, €86), Air France (14:35 MRS to 15:25 LYS, 50m, Light Economy, €86), and Air France (19:00 MRS to 19:50 LYS, 50m, Light Economy, €86). The train option is no longer visible.

NEO EXPENSE

[EXPENSE REPORTS] POSSIBILITY TO RECALL SUBMITTED REPORTS

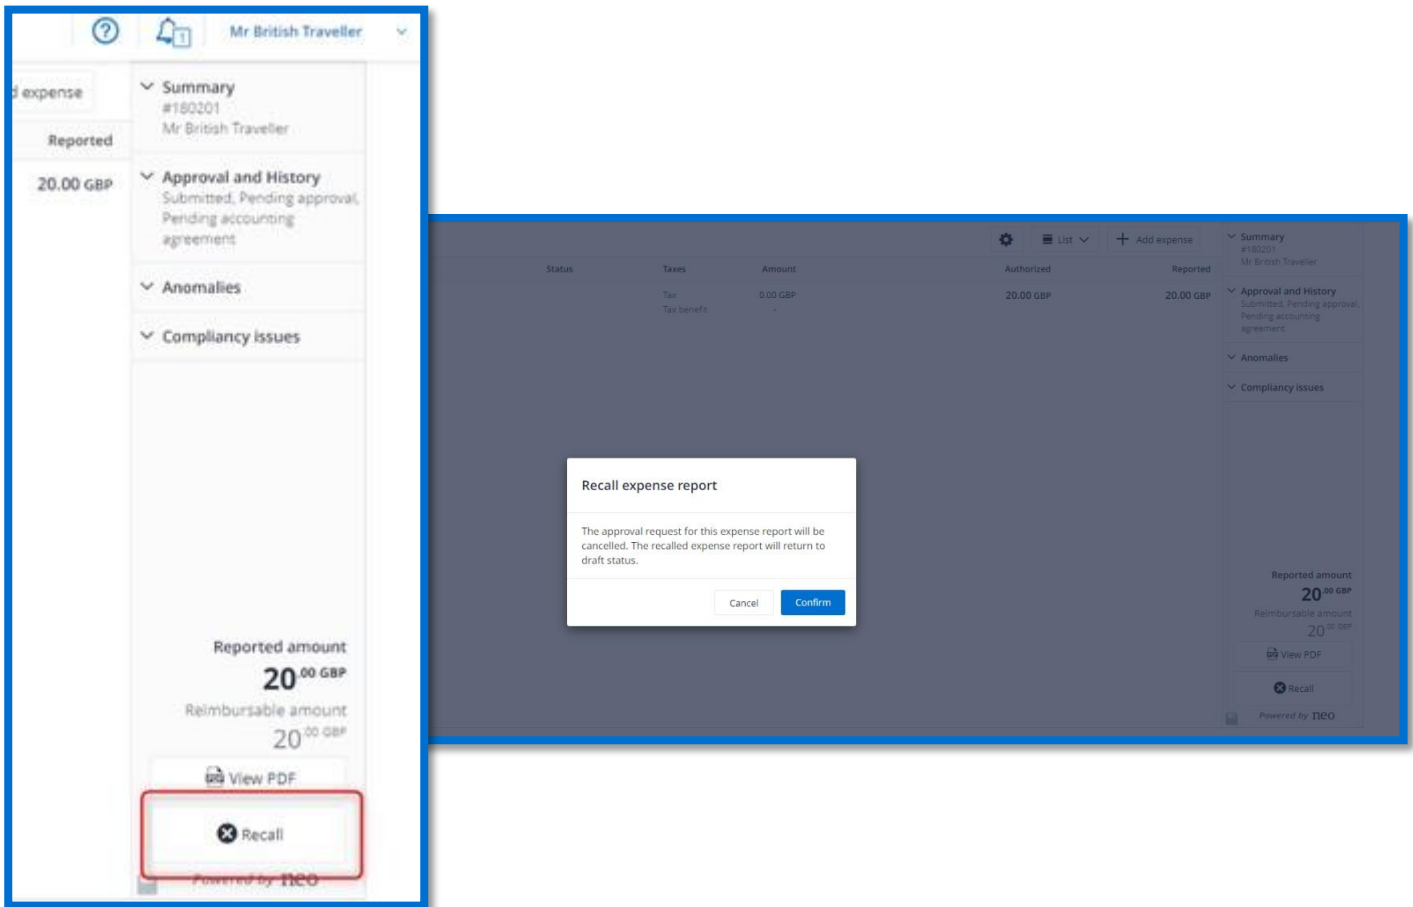

MADE FOR...?	Traveler Arranger
COUNTRY	All
ACTIVATION	Automatic if Neo expense enabled

SYNOPSIS

Users can now recall their submitted expense reports if they must modify it in the case, it was submitted too quickly, or further information must be added to it.

DETAILED SCOPE

Only expense reports pending validation can be recalled by users. As soon as the approval or accounting status is approved, recalling the expense report will no longer be possible. Emails confirming the recall operation is sent to both the user and approver(s) who were targeted within the initial report.

An email will be sent to the user informing them that the expense report has been recalled:

[BILLING] RECONCILIATION OF MULTI-PASSENGER BOOKINGS

ACTIVATION	Automatic if billing module enabled

SYNOPSIS

Multi-passenger bookings are now automatically reconciled in the Billing module with related bill lines within the invoice.

[ACCOUNTING] PENDING LIST UPDATE

MADE FOR...?	Expense Manager
COUNTRY	All
ACTIVATION	On request if Neo expense enabled

SYNOPSIS

Upgrades have been performed on the new view of the accounting list. This reduces the previous limitations and provides an enhanced user experience.

These upgrades consist in:

- The 200 expense reports display limit has been removed thanks to the integration of the pagination. All pending expense reports will be displayed with up to 25 reports per page.
- A new filter Company, has been added:
 - This enables accountants to filter expense reports lists according to the employee's company. The filter displays the companies which have at least one pending expense report.
 - This filter displays a maximum of 200 companies.

[ACCOUNTING] POSSIBILITY TO REJECT EXPENSE REPORTS

MADE FOR...?	Accountant
COUNTRY	All
ACTIVATION	Automatic if Neo expense enabled

SYNOPSIS

All accountants will now be able to reject expense reports regardless of the workflow. They will have the choice to take the decision of approving, rejecting, or putting on hold an expense report.

These action buttons will only be available inside the expense report page.

Changes were made to the two decisions Reject and On Hold in order to bring clarity to the behavior of each decision and unify the associated statuses

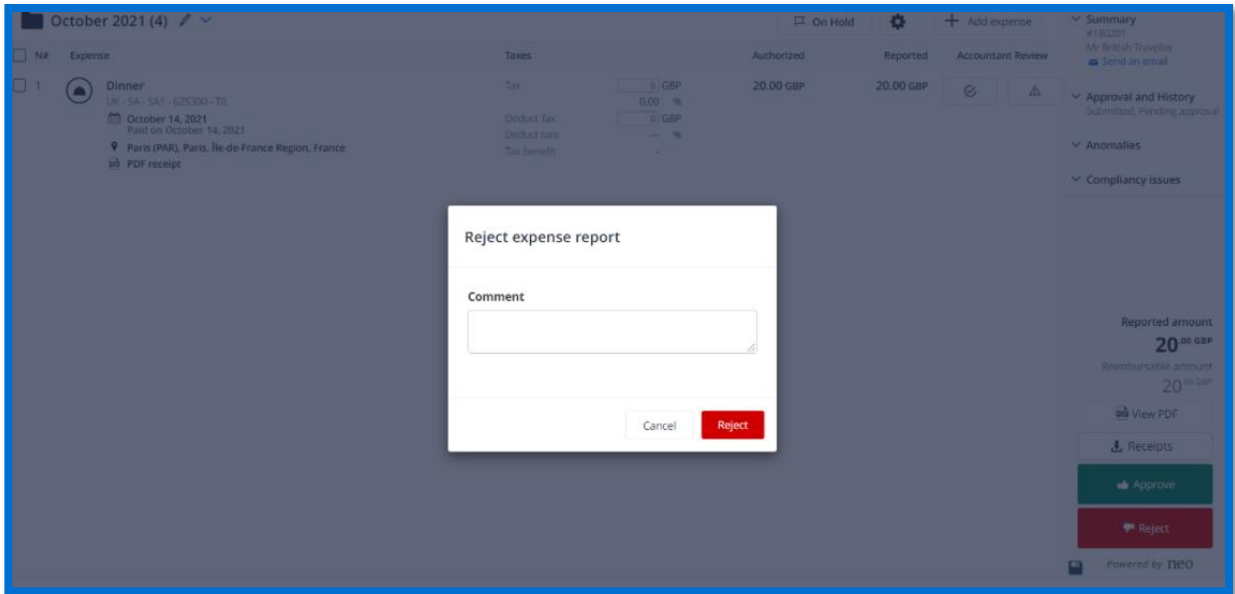

DETAILED SCOPE

Reject

The **Reject** button will enable the accountants to reject expense reports. These expense reports are sent back to the users in Draft status. The accountants have the possibility to add a comment explaining the reason.

Users are notified by email that their expense report has been rejected by the accountant and will be able to go back to the expense report to edit and submit it again.

The status will reflect the decision to reject the expense report.

NOTE: There is no change in the rejection process for accountants that were already in the Accounting then Supervision workflow.

Please note that in expense reports which have not been approved (and which are not rejected and in draft status) will not be displayed in the pending list.

This will avoid causing an increase o pending expense reports.

In the older version, it will be possible to batch reject expense reports from the list.

On Hold

The **On Hold** button has been relocated to the report’s action bar. This allows accountants to put the expense report on hold when additional details are needed before taking a decision.

The expense report can be marked as being on hold, and it is also possible to remove this on hold flag.

When an expense report is put on hold, the accounting status remains as Requested and no notification is sent to the user. The action is also displayed in the History panel.

When **On hold** is enabled, a flag is displayed in the pending list.

The screenshot displays the NEO expense management system interface. At the top, there are navigation tabs for HOME, FINANCE, TRAVEL, and EXPENSE. The user is logged in as 'Mr British Accountant'. The main view shows an expense report for 'October 2021 (4)'. A specific expense is highlighted: 'Dinner' for 20.00 GBP, incurred on October 14, 2021, in Paris, France. The tax details show a tax amount of 0.00 GBP and a deductible tax of 0.00 GBP. A tooltip 'Put on hold this expense report' is visible over the 'Author' column. On the right side, there is a summary panel with sections for 'Summary', 'Approval and History', 'Anomalies', and 'Compliance issues'. The summary shows a reported amount of 20.00 GBP and a reimbursable amount of 20.00 GBP. At the bottom of the summary panel, there are buttons for 'View PDF', 'Receipts', 'Approve', and 'Reject'. The interface is powered by NEO.

[PASSWORDS] PASSWORD RESET LINK

COUNTRY	All
ACTIVATION	Automatic
AVAILABLE ON ...?	Desktop

SYNOPSIS

To improve security and user experience regarding our forgotten password feature, we are making the following changes:

- The emails sent when a user requests a password resent through the forgotten password form will not contain directly a new temporary password. Instead, they will contain a one-time secure password reset link which when used will provide the user the capacity to define a new password.
- Improvements for the resent password link:
 - The link for resetting a password can only be used one and will not work once the user has successfully changed their password.
 - The link is valid only for ONE HOUR. If the user clicks on the link after it expires, the user will be redirected to the forgotten password form, and the reset process will restart.
